

## AQUILA II ECONOMIC

**Aquila II ECONOMIC is a high-quality, multi-purpose bed designed for hospital stays. Provides patient comfort during lying down and during operation. Important features:**

### Construction:

- Bed structure is made of rectangular carbon steel profiles, powder coated with polyester-epoxy varnish, resistant to mechanical, chemical and UV radiation (COLOUR RAL 7035). The main structure of the bed is made of profiles with a cross-section 5x3 cm, which guarantee the stability of the structure and high permissible load (250 kg),
- 4 pallet segments are filled with powder painted wire mesh,
- The backrest, thigh and shank segments are equipped with mattress holders which prevents mattress from sliding and moving sideways,
- The back rest equipped with CPR,
- 2 sockets for IV pool stand from head side,
- 4 bumpers on the beds corners,
- Easily removable head and footboards – version made of metal pipes powder varnished filled with HPL board(SL-04.0). HPL board available in one of 6 colours,
- 4 Castors 125mm each with individual brake.

### Adjustments:

- Bed height, thigh and back support segments, Trendelenburg and anti-Trendelenburg adjustable by means of electric actuators and operated with a hand rest.
- Lower leg section adjustment: mechanically by Rastomat.

**A wide range of the adjustment-** The bed can be easily adjusted to the height of a stretcher, wheelchair of shower trolley. The bed ensure an ergonomic posture of caregiver during patient care.

### Controls:

- Wire hand set with key lock and 10 buttons which can be hung on the side rail

Medical device meets the safety requirements of the European Directive 93/42/EEC and Law on Medical Devices.
